Act Assist

Cloud Accounting System

WEB BASED ACCOUNTING SYSTEM

Act Assist – Core Modules

General Ledger (GL):

- Acts as the central repository for all financial transactions of the company.
- Captures transactions from multiple modules, including Accounts Receivable (AR), Accounts Payable (AP), Cash Management, and Payroll.
- Offers a complete view of the company's financial position and performance.

Some of its prominent features

Quick Reporting

- Reduces the time and effort required to generate reports.
- Minimizes the likelihood of human errors.

Accounts Receivable (AR):

- Tracks money owed to the company by customers or clients for goods or services provided on credit.
- Generates invoices and statements.
- Manages customer payments and monitors outstanding balances.

Some of its prominent features

Go Paperless

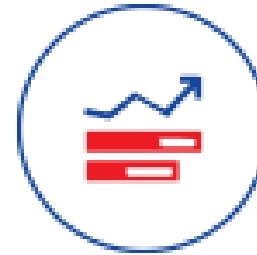

- Reduces paperwork to promote an eco-friendly approach.
- Eliminates the need for extensive storage space required for manual accounting by digitizing all financial data.

Accounts Payable (AP):

- Tracks money owed by the company to suppliers or vendors for goods or services purchased on credit.
- Records invoices received from suppliers.
- Manages payment processing and monitors outstanding liabilities.

Some of its prominent features

Flexible Reporting

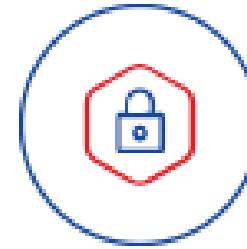

- Enhanced Productivity with Act Assist Accounting Software.
- Allows easy access to data, making employees more productive.

Bank Reconciliation:

- Matches transactions in the accounting system with those in the bank statement.
- Identifies discrepancies and ensures alignment between financial records and bank records.
- Helps detect errors, fraud, or unauthorized transactions.

Some of its prominent features

Access Rights

- Role and Rights-Based Access.
- Enhances security controls by assigning system access based on user roles and permissions.

MIS & Accounting Reports:

- Offers insights into the company's financial performance, liquidity, and solvency.
- Assists stakeholders in making informed decisions with accurate and timely financial information.
- Produces a range of financial reports, including:
 - Trial Balance
 - Party Ledgers
 - Ageing
 - Outstanding
 - Cash Book
 - Bank Book
 - Profit and Loss
 - Balance Sheet

Some of its prominent features

Easy Maintenance

- Delivers speed, accuracy, and reduced costs for managing business transactions.

Audit Trail:

- Keeps a detailed record of all financial transactions, including date, time, user, and transaction details.
- Enhances transparency and accountability with a traceable history of changes to financial data.
- Supports internal controls, compliance, and auditing processes.

Some of its prominent features

Better Security

- Provides enhanced security by keeping sensitive information private and protected.
