Act Assist

Cloud Accounting System

WEB BASED ACCOUNTING SYSTEM

Act Assist – Core Modules

General Ledger (GL):

- Serves as the central repository for all financial transactions of the company.
- Records transactions from various modules such as AR, AP, cash management, and payroll.
- Provides a comprehensive view of the company's financial position and performance.

Some of its prominent features

Quick Reporting

With a cloud accounting software, businesses need to spend less time and efforts to create reports. Also, there are probably less chances of human errors.

Accounts Receivable (AR):

- Tracks money owed to the company by customers or clients for goods or services provided on credit.
- Generates invoices and statements.
- Manages customer payments and tracks outstanding balances.

Some of its prominent features

Go Paperless

Act Assist accounting software reduces the paperwork to foster an environmental-friendly approach. Where manual accounting needs huge space to store loads of financial data, cloud software makes everything digital.

Accounts Payable (AP):

- Tracks money owed by the company to suppliers or vendors for goods or services purchased on credit.
- Records invoices received from suppliers.
- Manages payment processing and tracks outstanding liabilities.

Some of its prominent features

Flexible Reporting

Our cloud accounting software allow accessing data with ease thereby turning employees more productive.

Bank Reconciliation:

- Matches transactions recorded in the accounting system with transactions recorded in the bank statement.
- Identifies discrepancies and ensures that the company's financial records align with bank records.
- Helps detect errors, fraud, or unauthorized transactions.

Some of its prominent features

Access Based Rights

Role and Rights based access of the system, to provide better security controls

MIS & Accounting Reports:

- Provides insights into the company's financial performance, liquidity, and solvency.
- Helps stakeholders make informed decisions based on accurate and timely financial information.
- Generates various financial reports such as:
 - Trial Balance
 - Party Ledgers
 - Ageing
 - Outstanding
 - Cash Book
 - Bank Book
 - Profit and Loss
 - Balance Sheet

Some of its prominent features

Easy Maintenance

The Cloud Accounting Software offers speed, accuracy and lower cost of handling business transactions.

Audit Trail:

- Maintains a detailed record of all financial transactions, including the date, time, user, and nature of the transaction.
- Enhances transparency and accountability by providing a traceable history of changes made to financial data.
- Supports internal controls, compliance requirements, and auditing processes.

Some of its prominent features

Better Security

A major advantage of using cloud system is enhanced security to your business where sensitive information is kept private.
